 - Check is going out - all in favor

Chamber Report:

Oct 23rd - Live debate to be held at chamber with WOSH - contact Devin to RSVP

Membership:

No new members, guest from Berry Fresh (Brooke-owner)

New Business:

Annual board meeting - want to repeat last year with a panel
Connie announced previous panel
Marcus recommended adding Lang's to the panel
Keeping the Venue at LaSures was agreed by all

Guest Speaker:

Bryan Lipke from Wisconsin DOT

- The Hwy 21 project was discussed - been working on the project since 2005 - partnering with Westside Arterial (Ernie Winters is representing).
- Long term expressway management - change to four lanes - will have cross traffic and will allow existing driveways - more roundabouts to come
- May 2013 had public meeting to discuss plans - included DNR/Core of Engineers/US Mission wild life/EPA

Came up with Four plans:

- Expand North, Expand South, Hybrid, Alternative Hold Existing Right Away
- The Hybrid plan has been primarily recommended - not public yet (has least amount of impact on people)
- Did noise analysis - will share results with the public
- Rivermore Road to Leonard Point Road - 1st corridor
- Bike path will be included, 10 ft paved shoulder
- Majority of crashes right now are occurring by Leonard Point Road (roundabout should change this)
- Traffic is being constantly monitored - traffic has gone down in this past year
- 60% Shelf plan – This may not be done for 15-20 years - will keep monitoring traffic
- Will plan a meeting to meet with locals to discuss Westside Arterial – 50 to 60 members at Stakeholder meeting which is tentatively happening in the Fall/Winter 2014 to present all alternatives
- There will be a public meeting
